Individual Retreats

The world is a busy place and the demands on our personal lives can be great. Sometimes, the best thing we can do for ourselves is to go on personal retreat, take a soul-full opportunity for deep inner reflection and rejuvenation and invite greater peace and clarity into our lives.

Each person is given their own private room, and shares the common spaces of the meditation room and kitchen. A light, self-service breakfast of cereal, toast, fruit, coffee, and tea is provided each morning. Guests are asked to bring their own food and cook their own meals for lunch and dinner. Refrigerator space is provided for each guest. Price: \$60 per person, per night.
